PLEASE NOTE:

The certificate that you receive upon completion of this course will serve as your notice to the world that you have reached a level of expertise in the massage field. It is not a license. You will need to take your certificate to the city or county in which you intend to practice, and show it when you apply for a license. A license is merely a tax or a toll that a political subdivision demands for the privilege of conducting business within their boundaries. Such a license provides permission; it does not certify expertise. Only a certificate from a reputable school certifies expertise.
